

DELIRIUM ON HELIUM QUESTIONNAIRE FOR JAMES DEAN BRADFELD

- What has been the best festival you've played so far this summer and why?

Glastonbury - because it felt as if we had finally played a good gig there after all these years.

- Did you watch any of the Glastonbury coverage and which bands did you enjoy?

FURRIES, R-HEAD

- Earlier this year, Russian pop duo TaTu caused a storm. Do you believe the hype surrounding their so-called lesbianism?

- If you were asked to take part in Celebrity Big Brother would you do it? If so, who would you choose as your housemates?

- What do you think of Marilyn Manson's new album?

The only thing he's ever done wrong for me was his appearance

- Did you watch the Martin Bashir interview with Michael Jackson? If so what did you make of it?

Did people need to visually see M.J. to realise all of it? ... who cares.

- Are you scared of the JDBAS?!

- If you had to pick three Manics songs that best sum up the bands career what would they be?

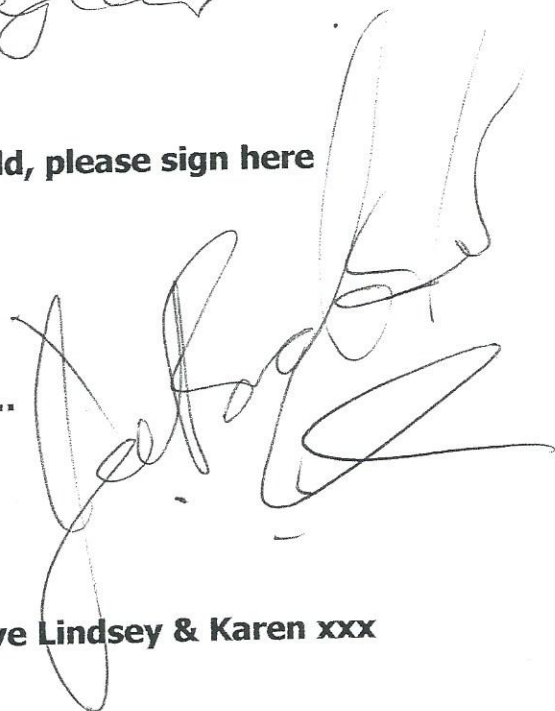

TOLERATE, IF WHITE AMERICA, MOTOWN JUNK, just shows that you can pass from youthful nihilism to older reflection &

- What's the best album you've heard so far this year? not be obsolete

To be honest it's still the RADIO 4 album from last year.
