# DELIRIUM ON HELIUM QUESTIONNAIRE FOR NICKY WIRE DECEMBER 2005

- **What did you think of this year's NME "Cool List"? Did you agree with the Arctic Monkeys singer being number 1?** *(Question from Karen, Forever Delayed forum)*

Yeah the cool nice words sometimes -  
great video - You're the world is watching.

- **James has mentioned in interviews an alternative version of 'Tsunami' which he likes better than the one that made it on 'This Is My Truth...'. Would you ever consider putting out a 'MSP: Bootleg Tapes' album (in the style of the Bob Dylan Bootleg series) featuring previously unreleased tracks or alternative takes of released songs (specially considering how great 'Judge Yr'self' turned out to be)?** *(Question from Phil C, Forever Delayed forum)*

There's loads of stuff But NOT  
enough like will power on time  
were working on new stuff anyway -  
GLAMORASTIC ROCKNROLL but it's evergreen here

- **You've said in the past that you enjoy painting, so I was just wondering what your work was like stylistically, who inspires you and whether you'd ever consider exhibiting your paintings or using them in artwork?** *(Question from Amanda, Forever Delayed forum)*

My paintings are just for me - there's no  
ego involved just - release - influences = KUFFIN, DE  
KOONING - Pollock - N. Howells - Turner.
